S.C. Public Service Commission,

In reference to S.C. Public Service Commission Docket 2005-385-E Order No 2006-680.—

This state has a lot of sunny days — and should be perfect for solar energy, causing one to wonder why we do not take advantage of this - I believe that people should have the chance to invest in Solar generation with net metering opportunities.

Yours Truly

Nancy M Brown
