Dear Public Service Commission,

I am writing this letter of protest in reference to Docket No. 2009-489-E regarding the request by SCE&G proposed rate hike. First let me say that every time I turn around someone is raising rates or cost of rent, cable, phone, taxes and now another hike in electricity which most are essentials to living. I myself am on disability and only recieve a fixed amount of money each month and that doesn't even cover those expenses each month. I am not physically or medically able to work and if I could work I don't own a car to even get there. There are alot of people in this same situation or a worse situation than I am so I feel for them and ask that this rate hike is not approved. I recieved a notice via email and I am glad I did even though I also recieved something in the mail also so lets not give them their way, its hard enough without the increase.

Thank You
in advance
Ms. Denise Dobbs
