RE: Public Hearing in Col, SC on 7.3% rate increase

To Whom It May Concern:

We are writing this letter in protest of an 7.3% rate increase for the following reasons:

(1) No public hearing mtg. for Chas, SC only Col.. We cannot travel to Col. for this + neither can many people from Chas. needing public mtg. here - this is unfair!

(2) With gas, food, state insur., medicare premiums increasing or have increased, plus food cost to increase greatly at end of yr. or beginning of next yr. Data states 75% of acc the productive use have corn in them, & on the crops. People cannot handle this increase. Also, many people are without jobs, have lost homes, or just working part time without insurance.

We are against a rate increase!

Please pass this along to the proper person.

We are helping a disabled dau. trying to be independent.

P.S. We own 2 homes + were greatly cut back on electricity if this passes + were encourage others to do the same.

Sincerely,
Jack P. Cranwell
Amarylis Cranwell
