APR 22 2010

I know that I need light to see at night and air condition, but I can't pay my bill now if there is an increase. I dont know how I can pay it. why do it have to be an increase on electric rates. They say that encomy back. SCE&G should give people a break. It's not fair that the rates go up, but the pay not go up with it. God help this world.

Thank You
Gloria Tillman
