Dear Sir,

Protesting the Docket No. 2012-203E and want to speak at your 9-11-12 meeting at 10:30 AM Mrs Lewis and I both want to speak. We will need time to get our material ready so send us what we need to know before hand.

Why not have a meeting at night so more people can come for they can't get off from work if they have a job. Maybe that is why you have it in the morning.

We both are old and sick so please answer as soon as possible. Maybe advertise by paper and television, you advertise every thing else.

He is legally blind and if at night we will have a better chance of getting there.

Thanking you
Denis Fletcher + Mr Ralph
