222447

To: Public Service Commission of S.C.

This letter is written to protest the approval of the rate increase recently requested for SCE&G. It is our understanding that they were approved for a 2.5 percent rate hike annually, as well as a 4.4 percent increase in 2008.

I ask you, how can SCE&G justify this increase when they are selling power to another company and their customers pay less per kilowatt hr. than SCE&G customers? We already feel totally ripped off, and feel like we are being used to support a system that is very unfair, not to mention that we feel penalized for being an SCE&G customer.

Please we wish you do not approve this increase.
