SC Public Service Commission
101 Executive Drive, Suite 100
Columbia, S.C. 29210

REF. NUMBER: Docket 2009-489E

My husband and I are retired and living on a poverty level income. Between increases in cost of Living, medical and prescription cost, we are unable to survive with constant increases in rates being forced on us by SCE&G.

Since we do not have the option of shopping around for power, we need someone to stand up for us, so I believe that falls on the SC. Public Service Commission.

Top Management of SCE&Gas should stop "Living High on the Hog". a reduction of salaries, Bonuses and perks would go a long way toward helping poor people with their power bills.

Thank you for any help you can provide in stopping SCE&G from continuing their constant rate increases.
