CLERKS OFFICE

11-5-11

To Whom It May Concern:

I am writing this letter to strongly protest Docket No. 2011-271-E. As a senior citizen living on Social Security and a small amount from an IRA, I can ill-afford a 17% increase in my utility bill. If this amount is granted to Duke Energy, I and many others, will be faced with some hard choices. We've already seen our monthly incomes get smaller and smaller as groceries, gas, medicine, supplement insurance premiums, and now Medicare premiums has risen. It's not just seniors that should be considered though. So many of our citizens are unable to find work and have families to feed and clothe. So please consider the people of South Carolina before you consider Duke Energy's profit margin.

Ms. Carolyn Weathers

To Whom It May Concern:

This letter probably won't even be read, but it made me feel better to write it, since my husband has been in the hospital and we were unable to attend the meetings that were held regarding Docket No. 2011-271-E
