S.C. Public Service Commission:

Over the years I have always thought how convenient it would be to be like SCE&G and everytime you wanted a little, or like SCE&G, a lot more money to live like you would like to all you had to do would be to ask the "powers-that-be" and your wish would be granted.

This "wish" of SCE&G is too much for too many, especially now and should be denied — Their customers who have no other choice but to buy from SCE&G should be thought of as well as their stockholders.
