DD 10/18/12

2012-218.E

Public Service Commission of SC.

I am writing to protest the constant rate increases that SCE&G submits in the present economic conditions.

I believe these are reckless increases that seem nearly always to be granted.

To say our rates are low nationally is preposterous as we are obliged to use these utilities year round without respite. Thus more & more of our yearly income goes to SCE&G (which is a monopoly where I live.)

Sincerely

Beverly Heisner
