Docket 2009 489-E
223070

I am a resident of Lexington County, a senior and I though I struggle at times to make my payment on time and always for the full amount due, I do it. I object to a rate increase at this time. with the economy like it is and so many people out of work and struggling just to eat or pay rent, if this rate increase at this time is approved lots of citizens will not be able to pay at all. I realize that "no time seem to be the right time" but "plainly this is not the time"
