Ref Docket #2009489E

Dear Gentlemen

Been away recently for two and a half weeks to new York City, NY for Cancer treatment for our son Randall Scott Carpenter. (nasal Passage). He lost one eye when he was a child to cancer. This recent trip has absorbed for (4) of us, 7000 (Hotel + trip cost only) This is why we are late in answering your proposed 10% increase. Your bills are choking us. We are struggling with your bills now. My wife's mother has been with us over a year which is additional expense. She is 90 years old & has to be kept warm. We need your help. and not another 10% increase.

Sincerely Yours

Anthony Minaya and Jean Minaya
