Re: South Carolina Electric & Gas Proposed Rate Hike of January 15th, 2010

Gentlemen, this rate hike is ridiculous and a pure example of corporate extortion! Under no circumstances must you approve this unnecessary measure. Instead, force this company's fat-cats and overpaid mgmt. to tighten their belts & cut wasteful spending. Their residential cstmrs. are forced to undergo long and freqnt. pwr. outages, while Santee-Cooper cstmrs. get discounted elec. rates & super service!! Give Help by voting it down & see the benefits-
