Re: Application of BellSouth Telecommunications, Inc. to Provide In-Region InterLATA Services Pursuant to Section 271 of the Telecommunications Act of 1996
Docket No. 2001-209-C

Dear Ms. Boyd:

BellSouth Telecommunications, Inc., d/b/a AT&T South Carolina ("AT&T South Carolina") is filing a Proposed July 2010 Data Notification Report.

Thank you for your attention to this matter.

Sincerely,

Patrick W. Turner

PWT/nml
Enclosure

PROPOSED JULY 2010 DATA NOTIFICATION

BellSouth Telecommunications, Inc., d/b/a AT&T South Carolina ("AT&T") is considering making the changes described in this document to generate results for the July 2010 data month. Results for the July 2010 data month will be posted as follows:

Preliminary results	August 20, 2010
Final results	August 31, 2010

AT&T provides Data Notifications each month in compliance with the SQM Plan. The Plan specifies that when AT&T proposes making any changes to the methods by which performance data is calculated, it must provide written notice. The notice is provided on the first business day of the month before the data month in which the change will be made. The Plan also requires AT&T to provide notification if it is considering making changes to the method of calculating data for the following month.

ENCORE Releases may affect monthly data flows from the source systems (e.g., LASR, LESOG, etc.) that PMAP uses to calculate measurements. AT&T will make changes to PMAP to ensure that data continues to be correctly captured as ENCORE Releases are implemented.

System releases may affect monthly data flows from the source systems that PMAP uses to calculate measurements. AT&T will make changes to PMAP to ensure that data continues to be correctly captured as system changes are implemented.

Ordering Measurements

(1) *Affected Measures*: FT
O-3 Percent Flow-Through Service Requests [FT]

Description of Change: Currently, the aggregate and 12-month reports for Percent Flow-Through include affiliate data. AT&T proposes to modify the code to exclude the affiliate data from the Percent Flow-Through measure. This proposed change was item number one on the filed Preliminary July 2010 Data Notification. (RQ10821)

Impact of Change:
-For the March 2010 data-month in Florida, the CLEC metric for this change was not impacted for Residence, Business, and UNE-OTHER. For LNP Standalone, Percent Flow-Through changed from 99.14% to 99.01%. Due to the impact of this change, re-posting is not necessary.

Provisioning Measurements

(2) *Affected Measures*: SOA
P-11 Service Order Accuracy [SOA]

Description of Change: Currently, the aggregate report includes affiliate records within the regional data for the Service Order Accuracy measure. The 12-month report for this measure is correct. AT&T proposes to modify the code to exclude the affiliate records from the regional data for the Service Order Accuracy measure. This proposed change was item number two on the filed Preliminary July 2010 Data Notification. (RQ10770)

Impact of Change:
-For the February 2010 data-month, the regional metric for the SOA UNE-P disaggregation results would change from 94.12% to 100.00%. Due to the impact of this change, re-posting is not necessary.

Change Management Measurements

(3) *Affected Measures*: CRA
CM-7 Percentage of Change Requests Accepted or Rejected within 10 Business Days [CRA]

Description of Change: Currently, AT&T does not include the status "AH" (Accepted Held) as a candidate for the CM-7 measure. AT&T proposes to modify the code to include the status "AH" (Accepted Held) as a candidate for the CM-7 measure. This proposed change was item number three on the filed Preliminary July 2010 Data Notification. (RQ10760)

Impact of Change:

-For the February 2010 data-month, there was no change to the reported metric results. Due to the impact of this change, re-posting is not necessary.

STATE OF SOUTH CAROLINA)
