Dear Commission

I am very much against SCE+G's proposed rate hike. I feel that in a company that large, some good cost cutting would eliminate the need for a rate hike.

I wake up at 2 am to wash and dry clothes at a lower rate. I hope it really is a lower rate! Everything is unplugged - one clock on the stove for I cannot disconnect that. No lights on Christmas tree. I'm really trying to cut back, but my bills get higher.

Help!
