To whom it may Concern:

I am on Disability I get 674 A month I Can barely pay my bills As It Is and now Duke Energy Carolinas wants to line there Pockets even more my my little check I am infureated about this. They have enough money. They need to lower there prices so people can Afford what they charge now. If they go any higher people need to ban together and buy Generators to run there housns. They need to look out for people on ~~[illegible]~~ disability. Not look to harm us. Please reconsider your actions, you are hurting more people than you think if this goes through
