Dear Sir, or Madam.

I'm writing concerning the 10 percent increase I wonder if y'all thinks about the disable or the poor people or you don't care. Not to be rude, but I am disable and on a fix income, once a month is not enough to pay my bills and light bill for this month already take have of my check, I can't even afford to keep my car & pay insurance, I have to pay rent, water bill, phone bill, because of health condition I need my phone. By the time I paid all that which I don't have ~~eng~~ enough because of light bill, I have to take the government bus to doctor's appointment, and I have to try walking to the store to pick up a few packages. Can't even afford to shop. I understand about environment but what about the poor, elderly disable whose struggling now for heat light, majority for cooking, why now in this difficult economic times. It's a Great depression time for lot of people, no jobs, no homes, some don't have cars anymore. trying to make it then y'all come up with more depressing news by going it 10 percent. Bills goes up without telling you. Because they no we

need water just like we need light. God forbid He Jesus created the world for his Glory, not man's we'd suppose to have love and peace.

My God y'all trying to kill people with their eyes wide open.

My light bill for this month is $296.00. how can that possibly be. I can't afford to pay it. tried the trident-united way to no avail when you don't have transportation you can't get very far. try calling never get through! I really. truly need the help. I would also love to come to the public meeting but have no way of getting there. I need my voice to be heard I honestly can't afford these high electric bills.

Please help me if you can or try not ~~the~~ ~~it~~ to ~~let~~ ~~this~~ increase come to passes.

Thanks you for listen, as I try my best.

Sincerely
Elise Johnson
