Concerning
Docket # 2013-201-WS

10-12-13

To Whom it may Concern;

POSTED 10/18/13 tad

It is my understanding that you want to raise rats because of making improvements at certin places, I don't feel I should have to help pay for them. I live at 5093 Valleymere Rd. R.H. Newport area. I have lived here for 17 years, and I have to buy a under the sink filter for my drinking + Cooking water because for years my water has been foggy all the time + when my filter runs out I can taste the differens in water. I buy a lot of bottle water for that reason.

If you have made improvements other places, raise there rates not mine.

Thank You
Nancy Bobb

P.S.
I'm too old to drive to the meeting in Columbia
