To whom It Concerns,

I am writing about the Duke Power request for a rate hike. Like many more people, I am a retired single woman. I have a very limited income.

This year I am not able to even buy Christmas presents for my family.

I only heat 3 rooms in my house, do very little cooking, keep heat on 65°. Still paying an $81 bill per month.

Watch very little T.V.

don't burn lights during the day.

I don't know what else to do to save on power bill. My husband had house insulated in attic & underneath house when he was alive. Been about 9 years ago when done.

Please consider we are paying already for failed power plant.

I can't afford to buy many groceries, I sure can't afford more charge to my power bill.

I beg you to please deny this request.

Thank you,

Carolyn Wells

P.S. They could save money by quit sending out mail comparing my usage to other people's
