To whom it may concern:

I am a customer of South Carolina Electric and Gas ("SCE&G") and I believe that my 5th Amendment rights have been violated by SCE&G.

SCE&G has, by willful fraud, deprived their customers of their private property without due process. SCE&G had cause to believe that the VC Summer project was doomed, but continued the project in order to receive additional rate increases under the Base Load Review Act. SCE&G
misrepresented the health of this project in order to continue to deprive their customers of their private property.

In addition, SCE&G may have violated South Carolina law by using, through its contractor Westinghouse, unlicensed workers to design parts for nuclear reactors.

SCE&G is now the subject of numerous lawsuits as well as state and federal criminal investigations.

I strongly support this petition by the Office of Regulatory Staff and urge the Public Service Commission to act immediately to grant rate relief to the customers of SCE&G.
