Mr. John Moore
Jean Moore
103 Jennings Dr.
Easley, SC 29642-1960

Dear Sir,

Purpa, the Public Utility Regulatory Policy Act, has been the most effective single measure in promoting renewable energy. More than 40 states have adopted regulations requiring electric utilities to provide net metering to qualifying customers. South Carolina is one of the only states that has not done this!

We can bring about a change that will allow us to begin kicking the fossil fuel habit.

Sincerely
Jean L. Moore
John T. Moore
