9-28-11

Dear Sirs,

We are 2 elderly people who pay already, high power bills. I am 75, my husband is 80. I have to work part-time to pay our present bills and we are very conservative. We are contesting an increase in energy or any bill that comes monthly.

We were unable to attend the public hearing due to health reasons. Please consider the elderly in these bad times and know they are unable to pay all of these high prices. Including medical. It seems the elderly pay more than any other people. We both have worked all our

adult lives and we
need a break before
God calls us home.
Thank you very much
for letting me express
myself.

Maxine &
John Taylor
