10-9-13

Docket No. 2013-150E
Order No. 2013-680(A)

Dear Sir:

I would like very much to have your minutes to speak for the old, sick and shut in that can't get out.

This is on the In Re: SCE&G Company Annual Request for review rate. Every month you all are approving some kind of rate for this Company. It is nothing but communism with communist money it for they have Control over 655,000 people

This is so wrong when they can act like satan one who comes to steal, kill and destroy, yes causing people to die from freezing, suffocating and can't afford medicines, food and doctors

You would not even allow people to talk on the increase of the nuclear so what do you call that? I realize it is the legislature, Public Service Commission and the regulatory division all at fault for giving this greedy Company every thing they want.

There has to be some people who could do a better job than those that are there and could get them to do a better job at a cheaper salary. There are

lots of ways to cut back for I can tell you myself about them. Look at what they ask for in the beginning and the waste since (NUCLEAR) listen to me before they are finished they will be back for more money. If you all give them more all of you ought to have to put up the money not the customers.

We do have other bills besides utilities. NOT one of us make 5 Million a year with all the benefits at our expense. I would like a security system since I'm alone and sick. We can't afford Lawyers and lobbist for paying for the best for them.

I pray you will listen and remember we don't get salaries like PSC that we pay and all of them already have plenty. We who pay them can't have a conversation with them so why do they have to sit up there like dummies?

All of this is making a lot of us upset for we can't have a choice of the cheaper utilities (water - E + G).

Remember you will one day have to give an account to our Lord. If you can live with this we can die with it. With their greed they put sick & children out to make money off of new homes.

I petition this Commission for review of this order and opportunity to speak.

Sincerely
Doris Fletcher 755-7753
