PSC SC
CLERK'S OFFICE

October 18, 2020

Columbia, SC

To whom it may concern:

With thousands of South Carolinians out of work, with upward trending Covid-19 statistics in our state, and with lengthening food lines in every county, your request for increased revenue is at the very least tone deaf and in reality insulting and bordering on criminal. It is unconscionable to demand increased revenue in order to further extort those of us fortunate enough to have a home and require your gas and electricity. No.

Sincerely yours,
Patricia A. Popovich
