I'm out of pocket on personal matters, but at a high level, I support any recommendation that the guide/rules should either mimic or incorporate by reference the statutory definitions, especially those that are integral to the Commission's jurisdiction.

Afton,

I apologize for being late with this comment, but wanted to point out that the new definition of "Investor-Owned Utility," which replaces the definition of "Public Utility," is factually incorrect, because it includes all telephone utilities. In fact, some telephone utilities are member-owned telephone cooperatives. While telephone cooperatives are "public utilities," they are not "investor-owned utilities." We believe it would be best to retain the definition of "Public Utility" as in the original, which is consistent with SC statutes because it tracks the language of S.C. Code Ann. Section 58-3-5(6).
