Public service Commission
Bad decisions made this year

1st South Carolina Supreme Court backs the Mega Farms leaving the people in jeopardy.
2nd SCANA-SCE&G has dug them selves in a bottomless pit and want us customers to dig them out. They raise our rates and then they ask you the PSC to okay Nine rate hikes which you so generously rubber stamped with not a thought to the people paying the rate hikes.
The people in the State house also helped with the BLRA ACT. We did not create this bottomless pit so we should not pay for it and we should get any money we have paid for nothing back ASAP!
3rd Domion - They want to keep charging us for Nothing for the Next 20 years. I say No - If they want to merge then

ACCEPTED FOR PROCESSING - 2018 November 15 11:05 AM - SCPSC - 2017-370-E - Page 1 of 2

they should pay for it- Has any body given any thought to the people struggling to pay these power bills.

My husband and he owns a business and at 80 years old still works 4½ days a week. our combined power bills (house and business) are outrageous.

I have completely lost trust in people who make decisions that affect people. Some body needs to stand up for the people

No more rate hikes.

No to Dominion unless they shoulder the merger without charging the people anymore

I say NO MORE sticking it to the people.

Thanks,

Joyce Smith
