Columbia, SC 29210

R.E. - Docket No. 2022-52-E
Case filed by: Dominion Energy S.C., Inc.

Dear Mr. Commissioner,

I am a woman of almost [illegible] completely alone, and trying to live on $713.00 a month of Social Security. I am certainly not the only person in this situation. You know that there are alot more of us "have nots" than there are the "haves", but we are the ones that suffer the most! Some one eventually has to say NO to the owners, CEO's, large stock holders, and yes, even the government. I hope that you will be the one. Greed is an awful thing. Why do those that have so much alway want more + more? They try to convince us that there is a true need for increases in price. I seem to recall during the time after Dominion buying out SCE+G, prices going up for building, updating, and whatever! I also recall a promise that we would receive a re-coup of monies used. Well, that didn't happen! We haven't received a dime. Would you tell Dominion that I would like my check please!! If there were more public utilities to choose from I don't think that they would be so ast to ask you for increases time after time.

ACCEPTED FOR PROCESSING - 2022 March 25 3:04 PM - SCPSC - 2022-52-E - Page 1 of 2

We have to eat and have some basics. Alot of us are doing without or with less then we should have because of gas and utilities, etc. We of course, eat things that the "Haves" would not dare put in their bodies. We are on the losing end most of the time. Why shouldn't they be sometimes. Please tell them no on this increase and instead of planes, yaghts, extravagant vacations, millions for homes, how about paying us back!

I won't even go into Politics and Lobbiest. I know you get the message.

Thank you for your time and consideration. Please do the right thing and like Nancy Reagan said, "Just say NO."

Sincerely,

Francine M. Smith
