Mr. Randy Mitchell,

On behalf of myself and others having difficult times I ask you to vote no on Duke Energy quest for rate increase.

How can Duke Energy justify raising rates with the economy the way it is?

People have a hard enough time paying the power bill now.

In my area we can't get Duke Energy to do anything remove tree limbs off power lines, replace transformer, and old lines, they dont want to do anything.

Duke Energy is becoming a rich mans utilities company. Its not the place for people to pay for Duke Energy executives to have more vacations.

The people need help, and I ask you to help us. Don't give the lazy people an increase
Thank You
