To whom it may Concern:

I am writing in regard to docket # 2011-47-WS.

I am totaly against any rates or Charges for modification of Certain terms and conditions for the Provision of water and sewer service.

I find this water bill is very high. It is higher then any water bill I've ever had in my life. When I Purchased this house in this area. It was not disclosed to me of any radiation in the water until after I had already Purchased this house. I do not think this was fair to me by not disclosing this information to me. I would not have Purchased this house in this location had I been told about radiation in the water.

Another thing is that I gave a deposit on the Water then I wrote to Liberty Water so that I could get my deposit back from Caroline Water service. I was in good standing with the Water Co. in Liberty. I never did get my deposit back.

I am a 67 yr. old woman on social security I only get $688 per month. Social Security has not gotten a raise in the last 2 to 3 yrs. How am I going to pay my meds and other bills if you keep allowing the lights + wa to continue increasing our bills. Another thing that I reading on this letter that Caroline Water service se me states something about medical insurance premi increase. Let them pay their own medical insurance. have to pay mine. Even when I worked for a Company had to pay my own medical insurance.

What are these capital investment

these People are talking about? I'm not too swift to understand such things. I thought you had People to invest in Companies such as Water, lights and such.

In some states that I've lived in the County was in charge of water, sewerage, garbage pick up + mositio spray. The fee for all of these services were a lot less then the Water Co. Charges me each month I have to pay my garbage pick up extra here in this County.

I do not know what kind of maintance the Water Co. is talking about. The Water Co. is Always sending me letters to buy maintance insu I'm told that I am responsible for broken lin ect. I thought broken lines were the County responsibilities.

I've talked to my neighbors in this neigh We are all old + disabled people in this neighbor we most all of us are on social security. We do n have anything extra for such high water bills. do not water my grass nor do I wash my Ca I live alone. I do not even flush the Comod when I wee wee all day long. I do not wash C but once sometimes twice a month. My bill the same for when I worked out of the home was not here. I ever called the Water Co. a or two + told them I guess my little dog mu been playing in the water while I was at wor my water bill was so high.

I am a lost as to solve the water co. problem.
Maybe if the water co. would quit giving their
executives + share holders all of these big raises
+ vacations and no telling what all is being done
with the money they already receive from us
poor people. If they would invest it wisely +
manage it wisely I think they could ride it
out.

Increasing our bill is not the answer.
Go back to the drawing board + find another way.

If you have any knowledge on how I
can pay my meds + my other bills on $688 month
please advise me. By the way I do not have
any credit cards, have never had any nor do I
want any. If I can't pay for something I do
with out. If you call tell me how to pay this
additional water bill that you want to impose plea.
do not hesitate to let me know how to pay it

A Concerned Citizen.
