**Greetings.**

The cancelled V C Summer Plant is *neither used, useful and may not have been prudent* and as such it should not be in the utilities rate base.

1. I want back all the money I have already paid into the cancelled V C Summer Plant,
2. I do not want to pay a cent for the plant in the future,
3. SCANA can go bankrupt (business failure should not be condoned by bailing out SCANA),
4. A bankrupt SCANA will show other businesses that SC makes good, tough decisions that are proper,
5. The 1000 or so MW that the V C Summer plant was going to generate will have to be bought on the open power market instead and I will pay for that energy and so why should I pay for the same 1000 MW twice by funding the failed Summer Plant; and,
6. The offer by Dominion Energy means nothing to me, Dominion can go away, the $1000 Dominion promises was coming to SC and me anyways from Toshiba/Westinghouse.

Thanks and Regards,

Michael Hajny
