Dear Ms. Trott,

This is to acknowledge receipt of your Letter of Protest/Comments to the Public Service Commission of South Carolina. Your Letter of Protest/Comments has been placed in the Protest File of the Dockets listed below and on the Commission’s Website at www.psc.sc.gov.

2016-223-E - Petition of South Carolina Electric & Gas Company for Updates and Revisions to Schedules Related to the Construction of a Nuclear Base Load Generation Facility at Jenkinsville, South Carolina

2016-224-E - South Carolina Electric & Gas Company’s Annual Request for Revised Rates

A Protestant is an individual objecting on the ground of private or public interest to the approval of an Application, Petition, Motion or other matters which the Commission may have under consideration. A Protestant may offer sworn testimony but cannot cross-examine witnesses offered by other parties.

According to the Commission’s Rules of Practice and Procedure, filing a Protest does not make you a Party of Record. A Protestant desiring to become an Intervenor (i.e., a Party of Record) in a proceeding before the Commission may file a Petition for Intervention within the time prescribed by the Commission.

If we may be of further assistance to you, please do not hesitate to contact us.

Sincerely,

Hope H. Adams
Administrative Assistant
(803) 896-5122

Subject: SCE &G

I am shocked and disappointed that SCE & G is requesting another rate hike (the 9th!). Consumers already pay 16% of every monthly bill on a nuclear plant that is NOWHERE near completion.

REJECT this rate increase.

I retired from teaching in SC public schools and am on a fixed income. My SCE & G bill is the largest of all my monthly bills. If this rate hikes continue, I will have to sell my lifelong home. This situation is an affront to the 702,000 customers in South Carolina.
It is my opinion that South Carolina should allow other power companies to operate so that the citizens of SC would have a choice and get rid of the monopoly power companies in this state.

REJECT the rate increase to SCE & G.
