South Carolina Public Service Commission SC

Dear South Carolina Commission,

The Public Service Commission needs to think about the consumers they represent when deciding whether or not to let SCE&G have yet another rate increase. Consumers are continuing to pay in advance for projects at the VC Summer plant in Jenkinsville, SC.

Our state law allows utility companies to charge consumers more for cost overruns for big projects like building a nuclear power plant. This project has cost $1.5 billion more than originally estimated and guess who is footing the bill? I and other South Carolina consumers are paying, and it does not appear SCE&G is being held accountable for the project delays.

This is not fair and places a big burden on my personal budget. Why should I have to decide between paying my electric bill, buying groceries or medication or any of the other things I and my family need?

The PSC needs to get to the bottom of this and protect consumers from high utility costs. SCE&G's residential customers already pay more than 16% of our electric bills for this project. And if this new rate increase is approved, we will pay almost 19% more. Will it ever end?

Sincerely,

Mrs. Paulette Long
Adams, Hope

Dear South Carolina Commission,

SCE&G raising there price again, when was the last cost of living raise. When was the last time there was a minimum wage increase. When will these big companies or utilities companies stop raising prices putting the people more behind in because they want the money, and we as people cannot get a minimum wage increase to off set some of what they are trying to do. WOW! Come on State Government we pay for you to stop this do your JOB!! and stop this.

Sincerely,

Mr. Robert Peay
