Columbia, SC 29211

Re: Combined Application for Certificate of Environmental Compatibility,
Public Convenience and Necessity and for a Base Load Review Order for
the Construction and Operation of a Nuclear Facility at Jenkinsville, South
Carolina
Docket No. 2008-196-E

Dear Mr. Terreni:

Pursuant to a letter dated June 18, 2008, from the Docketing Department of the Public
Service Commission of South Carolina transmitting the Notice of Filing and Hearing ("Notice")
in the above referenced matter, please find enclosed for filing the following:

a.) Affidavits and tearsheets from the newspapers of general circulation in the
affected areas as proof of publication of the Notice.

b.) Affidavit of John R. Hendrix, Manager of the Electric Pricing and Rate
Administration Department for SCANA Services, affirming that the Notice was mailed to each
customer of South Carolina Electric & Gas Company on or before June 31, 2008.

Please acknowledge your receipt of these documents by file stamping the extra copy of
this letter and returning it to us via our courier.

By copy of this letter we are providing all other parties of record with a copy of the
enclosed documents.

If you have any questions, please advise.
Very truly yours,

K. Chad Burgess

(L.S.) Notary Public for South Carolina

My Commission Expires: 12-21-14
PERSONALLY APPEARED before me, John R. Hendrix, who being first duly sworn, deposes and says that he is Manager of the Electric Pricing and Rate Administration Department for SCANA Services; that at his direction and under his supervision the Notice of Hearing attached as Exhibit A and incorporated herein has been published in newspapers of general circulation applicable to the service area of South Carolina Electric & Gas Company on or before June 30, 2008.

John R. Hendrix

SWORN TO before me

15th day of July 2008.

My Commission Expires: 9-13-2011

SCE&G states in the Application that in order to meet the growing demands and needs of its customers for electric power, to support the continued economic development and prosperity of the State of South Carolina, and to maintain the reliability of its electric system, the Company plans to construct two nuclear generating units, namely, AP1000 Advanced Passive Safety Power Plants ("AP1000"), located near Jenkinsville, South Carolina and approximately one (1) mile from Summer Station Unit 1. The AP1000 units, identified in the Application as Unit 2 and Unit 3, and associated facilities will be jointly owned by SCE&G and the South Carolina Public Service Authority. According to the Application, the AP1000 represents an advanced nuclear generating design that has been approved and certified by the United States Nuclear Regulatory Commission. Moreover, the Company states that the AP1000 units and associated facilities will be constructed by a consortium consisting of Westinghouse Electric Company, LLC and Stone & Webster, Inc. SCE&G anticipates that AP1000 Unit 2 and Unit 3 will become operational in 2016 and 2019, respectively.

SCE&G further requests in its Application authorization to revise its current schedules of electric rates and charges to add the incremental revenue requirements associated with Construction Work In Progress resulting from the Company’s investment in the nuclear generating facilities described above during construction. The Company requests that the proposed increases be effective beginning March 2009. The proposed average increase to the residential class is 0.52%; small general service class is 0.48%; medium general service class is 0.51%; and large general service class is 0.44%. Amount and percentage
