To the PS Commission

Sir:

In regards to Docket Number 2016-223-E
(SCE+G Rate increase response)

The rate increase proposed by SCE+G will be burden for citizens of South Carolina, especially senior citizens and those on fixed incomes. We are already having problems keeping up with family needs, medicines and other utilities.

We cannot afford another increase and ask that SCE+G, as a company foot their own improvement bills and not pass these costs on to consumers.

We need help and consideration for people on fixed income.

Sincerely,

Barbara W. Jones
