RE: 2009 - 489-E Docket

Dear Members of the Public Service Commission:

As you consider granting yet another rate increase to SCE&G, please consider the enormous increase to the Gas Basic Facilities Charge since 2005.

In January, 2005, I paid a $3.00 monthly fee; in 2010, I am now paying $10.50 per month for the Gas Basic Facilities Charge. That is a 350% increase!

Then, notice the increases to the Electric Basic Facilities Charge increased in the actual rates of electricity and gas usage, increases to public use lighting, and the very creative Weather Normalization Adjustment (WNA). The WNA is just another way to increase the consumers 'charges.

Please, take into account all the different increases and then figure out how much the rates have really increased. Look at the big picture, please. If you do represent the citizens of South Carolina, don't you?
