RE: Combined Application of South Carolina Electric & Gas Company for a Certificate of Environmental Compatibility and Public Convenience and Necessity and for a Base Load Review Order for the Construction and Operation of a Nuclear Facility at Jenkinsville, South Carolina
Docket No. 2008-196-E

Dear Mr. Terreni:

On or about November 10, 2008, Mr. Joseph Wojcicki filed a document with the Public Service Commission of South Carolina (“Commission”) in the above-referenced docket styled as “Motion to Change the Location of the Two New Reactors Planned by Applicant.” This letter serves as the response of South Carolina Electric & Gas Company (“SCE&G” or “Company”) to Mr. Wojcicki’s motion.

SCE&G has pre-filed extensive testimony and exhibits in this docket explaining that the existing Virgil C. Summer Nuclear Station site near Jenkinsville, South Carolina is a superior site for the construction and operation of two new nuclear base load generating facilities. For the reasons set forth in SCE&G’s combined application and prefiled testimony and exhibits, the Company respectfully disagrees with his proposal. Therefore, based upon the Company’s testimony and exhibits prefiled in this docket, which is incorporated herein by reference, SCE&G respectfully requests that the Commission deny Mr. Wojcicki’s motion.

By copy of this letter, SCE&G is serving all those persons and entities included on the Service List for Docket No. 2008-196-E posted on the Commission’s website with this response and attach a certificate of service to that effect.

If you have any questions or concerns, please advise.

Very truly yours,

K. Chad Burgess
