Dear Commissioner Fleming,

I would like to urge you to not agree to the Piedmont gas company being bought buy Duke Power. We as customers need more competition not less. This sale will result in increased cost to all customers with no way to repeal the excessive cost!! Take for example have you heard of a decrease in electric bills from Duke Power, NO, Why not the cost of oil is way down!!!! Yet cost of electric, water, and gas keep going up!!! For those of us on fixed income are not getting increases so why do they get one. By allowing Duke power to buy Piedmont Gas you are creating a huge Energy MONOPOLY!!!! Which I thought was Illegal!! Certainly not for the benefit of the consumer of whom you are suppose to protect!!!

Thanks,
Tom Fox
