Re: South Carolina Electric & Gas Proposed Rate Hike of January 15th, 2010

Gentlemen, this rate hike is ridiculous and a pure example of corporate extortion. Under no circumstances must you approve this unnecessary measure. Instead, force this company’s fat cats and overpaid mgmt. to tighten their belts & cut wasteful spending. Then, residential cusrs. are forced to undergo long and frequent pwr. outages, while Santee-Cosier cusrs. get discounted elec. rates & super service! Give help by voting it down & keep the benefits.
