Customer

2. Please give a concise statement of your protest. * (This section must be completed. Attach additional information if necessary.)

Once again, this utility is before the Commission to request another rate increase which they indicate is necessary for construction of nuclear generators in Jenkinsville, SC. This project is already billions of dollars over contracted construction costs and behind in construction schedule. SCE&G appears to have no regard for cost or time. I am retired, on a fixed income and cannot continue to subsidize the lax attitude and responsibility of this electric company. I will not reap any benefits from this project. Stop the increases and hold them responsible for their cost over runs. I know bonuses and raises are still given and the amount they are requesting will include some of these amounts. If they are unable to manage their project, they do not deserve an increase.

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? *

No. If the meeting were held in the Charleston area, I would, but am unable to travel to Columbia.
