Re: Quarterly Report of South Carolina Electric & Gas Company Concerning Construction of V.C. Summer Nuclear Station Units 2 and 3

Dear Ms. Boyd:

On August 15, 2011, South Carolina Electric & Gas Company (the “Company” or “SCE&G”) filed with the Public Service Commission of South Carolina a copy of its Quarterly Report (the “Report”) for the period ending June 30, 2011, related to the construction of V.C. Summer Nuclear Station Units 2 and 3. During a review of the Report, SCE&G discovered an error in Appendix 2, Chart A. Specifically, the formula in line 16 of the native Excel spreadsheet underlying the confidential version of Appendix 2, Chart A did not update the calculation as intended. This problem occurred only in the confidential version of Appendix 2, Chart A and not in the public version that was filed. Consequently SCE&G has corrected and enclosed a revised confidential version of Appendix 2, Chart A.

Please note, as set forth in the August 15, 2011 filing letter accompanying the Report, the enclosed version of Appendix 2, Chart A contains commercially sensitive information subject to protection pursuant to the Engineering, Procurement and Construction Agreement between SCE&G and Westinghouse Electric Company, LLC and the Shaw Group. For that reason, SCE&G is filing this revised confidential version of Appendix 2, Chart A under seal and requests that it be subject to a protective order as requested in the August 15, 2011 filing letter.

If you have any questions, please do not hesitate to contact us.

Sincerely,

Belton T. Zeigler

Concentrating on public finance, governmental and utility representation.
